

Meeting Notes – October 19, 2015

Attendees: Vanessa, Jerry, Vincent, Jenn, Rob, Eric, Jaisen

Absent with Notice: Angus, Brett, Emily

Notes:

Workflow

Parse CSV

Store data into DTO (ie. PublicationDTO)

ex. PublicationDTOList → List of ValidatedPublicationDTOs

&& List of ErrorPublicationsDTOs

Function validates 'x' DTO (ie. PublicationDTOValidator)

PublicationDTOPopulator → takes in a DTO, and UI filter criteria, and returns a PublicationVO (view object)

UI takes PublicationVO and populates the screen

Action Items:

Vincent – Create PublicationDTOList, PublicationDTO and ValidatePublication classes

due by Wednesday EOD

Vanessa – Continue to work on UI

due ASAP

Rest of the group will develop the other 3 CSV types once Publication is done and use it as a template

Next Meeting:

Suggest that we try to meet Friday to work on the code ???
